\*This system provides fare calculation reference, actual fare should be based on the actual mileage of the train and on-site ticket sales.

When you select one of the options, it will show all the stations from start to finish on that line.

For example, this train starts in Hsinchu and passes through many stations before it gets to Taipei (where you will get on).

If you scroll further to the right, you will see Taipei, and all the stations that the train passes before it gets to Keelung.

Once you are at the Keelung train station, you may be in walking distance or a short taxi ride to your hotel.
