

**IMBER Data Management Committee  
Terms of Reference**

The IMBER Data Management Committee (DMC) shall:

- assess progress on the implementation of the IMBER data management strategy;
- recommend and implement actions to facilitate data management education and training;
- provide expert advice to the IMBER Data Liaison Officer, IMBER scientists and their research assistants and students to help with the implementation of IMBER data management policy;
- propose and review strategies to ensure that following a period of restricted access for the originating investigators, the data are made freely available to the global community.
- develop collaborations with national and world data centers to facilitate management of IMBER data
